Army and Navy News

The test of the big guns of the Dia-
mond Head mortar battery was by no
means as satisfactory in all respects
as has been stated, according to a
rumor that is current and which was
published in an afternoon paper yes-
terday. This is to be the effect that
the 16-ton casting upon which one of
the guns rests and upon which it is
turned was broken completely in two
during the firing of the full service
charge last week. In addition to this,
the trunnion was broken, which renders
the gun entirely useless unless it can
be repaired, which can not be done any
where except at the factory. As the
trunnion is cast on the gun and is a
part of it, it will be difficult if not
impracticable to repair it.

Both Major Winslow and Captain
Platt, who tested the guns, stated re-
peatedly that the test was in every
respect satisfactory and that the mor-
tars stood it without damage. Evi-
dently they had forgotten the little
matter of one of the mortars being put
out of commission by the firing. The
seven other guns, however, so far as
can be learned at present, are unin-
jured. It is believed that the break-
ing of the casting was due to a defect
which had not been discovered. Major
Winslow disclaims responsibility for
the story. Efforts to get any statement
from him in regard to the matter were
fruitless, though possibly the next
Parade of the Pacific will have a pic-
ture of the break and an official de-
scription of it.

Fleet to Test Wireless.

WASHINGTON, July 6.—Wireless
telegraphy will play an important part
in the war game of the Atlantic fleet
during the summer maneuvers off the
New England coast next month.

Admiral Schreder's flagship, the Con-
necticut, has been equipped with a set
of high-powered wireless telegraph ap-
paratus and the scout cruisers Chester
and Birmingham, when they reach the
United States from Liberia, also will
be equipped with similar instruments.
The scout cruisers, which for the first
time will participate in the war exer-
cises, will figure in some of the impor-
tant problems to be worked out by Ad-
miral Schreder, and the wireless tele-
graph will come into play in these evo-
lutions.

While the battleship fleet is at sea
practicing this summer the experiments
will be made with it in long-distance
wireless telegraphy. At Buzzards
Bay, Mass., a high-powered station has been
erected, and at this point Lieut. Com-
mander Cleland Davis and Lieut. George
Sweet, experts of the navy in wireless
telegraphy, will watch the work be-
tween that station and the vessels of
the Atlantic fleet carrying the high-
powered instruments.

Increase in the Army.

The standing army will be increased
by 1,000 men as a result of two general
orders recently issued by the Secretary
of War. One of these adds 500 men for
duty with army recruiting parties at the
general recruiting depots and in the re-
cruiting branch generally, making 8,000
instead of 7,500 with that service. The
other order establishes the new branch
to be known as the service schools de-
tachment. It is made up mostly of staff
non-commissioned officers attached to
the Army War College in Washington,
the artillery school at Fort Monroe, the
cavalry and infantry and staff schools
at Fort Riley and Leavenworth, the
hospital corps schools and the schools
for bakers and cooks. This detachment
will be separated from the rest of the
army, but similar in organization. In
the new detachment there will be 550
members. This brings the total author-
ized strength of the regular army up to
79,358, not including the Philippine
Scouts, of which the aggregate strength
is 5,731 and the Army Hospital Corps,
of which the total strength is 3,500.

Personal and Otherwise.

Lieut. Comdr. F. H. Brumby has been
ordered to the Virginia as navigator.
Lieut. Comdr. A. W. Hinds, detached
Virginia, to home and await orders.
Ensign C. S. McWhorter to the Des
Moines; Midshipman M. C. Robertson
to the Mississippi; and B. L. Lankford
appointed paymaster's clerk, West Vir-
ginia.

Lieutenant Arthur Poillon, Four-
teenth Cavalry, U. S. A., now in Wash-
ington, D. C., is relieved from duty as
aid-de-camp on the staff of Brigadier-
General Tasker H. Bliss, U. S. A., and
will report in person to the chief of
staff for duty in his office. He is de-
tached to enter the Mounted Service
School and will report on October 1 to
the commandant of the school at Fort
Riley, Kansas.

The Twenty-sixth Infantry, U. S. A.,
commanded by Colonel Charles A.
Booth, U. S. A., will arrive on the
transport Sheridan from the Philip-
pines on July 15.

Brig. Gen. Winfield S. Egerly has
been relieved from command of the
post at Fort Riley, but will continue to
perform the duty of commandant of the
Mounted Service School.

The Governor of Hawaii has asked
that the reservoir and pipe line on Dia-
mond Head Military Reservation on
Oahu, Hawaii, be not included in the
reservation, says the Army and Navy
Journal. The matter has been taken
up and thoroughly considered at Wash-
ington and the decision is that it would
not be advisable to give the Territory
the northeast slope of the crater for
use as a reservoir, but that there would
be no objection to allowing the reser-
vation of the southeastern slope for the
purpose indicated. The matter has not,
however, been decided and will be taken
up by the Secretary of War later in the
summer.

The newspaper report that white
troops are to be sent to Fort Brown at
Brownsville is said to have no official
foundation. It is not likely that the War
Department will ever again make use
of Fort Brown as a military post. It
has been turned over to the Depart-
ment of Agriculture for special scienti-
fic purposes.

Stop That Headache and Save Your Nerves

Do not try to endure a headache, waiting with what patience you can until
you have worn it out.

Why should you? It's a great deal better to save your nerves the wear
and tear of torture.

One dose of

Stearns' Headache Wafers

—a tiny tasteless wafer—brings you relief in a few minutes—real relief at that—
leaves your head feeling clear and natural.

When this certain ease from that pain is always at hand (or at the nearest
chemist's) there is no reason for suffering from headache.

You would not consider it wise to suffer from a cinder in your eye or a
thorn in your hand a moment longer than necessary.

Think it over—and remember that Stearns' Headache Wafers CURE, yet
never cause the formation of a drug habit.

Veal Chops

Not from beef, but young calves, and as perfect a sub-
stitute for chicken as can be found. Breaded and cook-
ed brown, then served with a tomato sauce, and you
have a course for a gourmet. We sell the veal.
